# Project ReCharge Master Teacher Program

## What is a Master Teacher?

### Background

Envirolution's Master Teacher Program is a new component of the interactive STEAM energy program, Project ReCharge (PRC). The training model is centered around teachers training other teachers.

What better way to learn about a curriculum than from other educators that have implemented it themselves in their classroom? New PRC teachers hear from experienced PRC teachers on how to implement the lessons and get all the tips and secrets that only come from trial and error in the classroom.

### Need

As Project ReCharge expands to more schools and districts, there is a greater need for experienced PRC teachers to lead essential trainings and help the program evolve and broaden its reach.

## Join our growing team of *STEAM Educators*

### Who?

Someone who has implemented all/most of the lessons, and is passionate and knowledgeable about Envirolution and its mission and programs

### How?

It takes a commitment to a multi year process to become a fully trained PRC Master Teacher

### Compensation?

**YES!** depending on the the stage you will either get a stipend starting at **\$350** and or hourly compernstaion starting at **\$40/hr!**

### Why?

- Take your professional career to the next level!
- Great addition to your resume!
- Attend and participate in local and national conferences!
- Share STEAM and sustainability resources with people from all over the country
