

C.C. Meneley Elementary Student Project Abstract 2023

Community Garden

Our PSA informational presentation is about community gardens. We want kids to help with our project by planting and maintaining a garden bed (1 per grade level, 7 total). This will allow them to get outside more at school. It will also help us to be healthier and make our school more beautiful. Our teachers can contribute by teaching us about gardening and the life cycle of plants.

Olivia, Fayelynn, Maddie, Abby, and Shyleigh
